

ALFA®

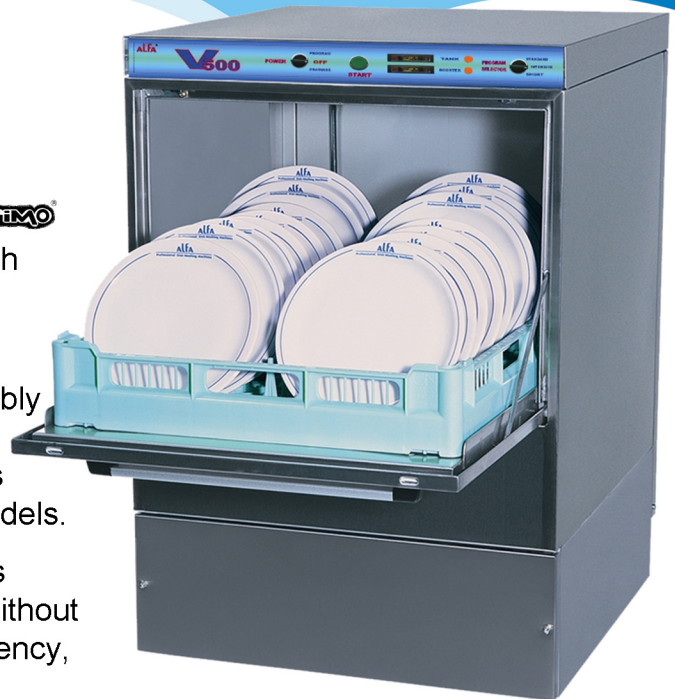

V500DP

Quality and Efficiency

After 40 years **ALFA** in association with **ULTIMO** are proud to announce a redesigned ultra high performance dishwashing machine line.

ALFA has developed the V500DP and V500 to the point where they provide very reasonably priced top quality ware-washing, very water and efficient use of power and with features found only on very expensive or larger models.

ALFA has succeeded in maintaining this excellent performance for our market, without sacrificing component quality and efficiency, while adding desirable features, all at an amazingly reasonable cost.
